**COSIM 2020**

June 28 – July 1, 2020  
Ferrol, Spain

Dear colleague,

We would like to cordially invite you to contribute to

**COSIM 2020**  
**International Symposium on Co-Simulation and Solver Coupling in Dynamics**

This International Symposium is endorsed by **IUTAM** and **IMSD**, and will be held in **Ferrol, Spain**, on **June 28 – July 1, 2020**.

Conference website: <http://lim.ii.udc.es/events/cosim2020/index.html>

This Symposium aims to provide a forum for the exchange of ideas regarding recent advances and developments on co-simulation and solver-coupling techniques. The Symposium scope covers, but is not limited to, the following topics:

- Co-simulation methods and techniques to improve convergence, efficiency, and accuracy.
- Stability and accuracy analysis of co-simulation schemes.
- Multi-physics and multi-domain applications.
- Parallelization and heterogeneous co-simulation.
- Standardization efforts.
- Software-in-the-Loop, Hardware-in-the-Loop, and System-in-the-Loop environments.

It is a major goal of COSIM 2020 to bring together people from academic institutions and industry, and to provide a basis for discussion and exchange of new concepts and ideas to scientists from the international research community.

Authors wishing to contribute to COSIM 2020 are invited to submit a two-page abstract to the Symposium Chairmen by February 14, 2020. Instructions and templates for submission can be found on the [Symposium website](#).

Looking forward to receiving your contribution, we send our best regards,

Francisco González ([f.gonzalez@udc.es](mailto:f.gonzalez@udc.es))

Javier Cuadrado ([javier.cuadrado@udc.es](mailto:javier.cuadrado@udc.es))
